4 PREMIUM SCREENING QUESTIONS

Ask **before** pitching. A 'yes' to any of these = clean premium story.

1	Has this property already been sold? Lowest risk — claim goes against prior policy, zero current carrier impact.
2	Is this property about to be sold? Good candidate — recover before it leaves the portfolio.
3	Was there a different carrier at the time of the storm? Green light — no current carrier relationship at risk.
4	Is this on a master/blanket policy? Flag for StormChecks — filing multiple claims on one policy raises carrier flags.

COMMISSION TIERS

	Referral	Override	Network Volume
Tier 1	5%	2%	First \$2M
Tier 2	10%	3.5%	Next \$10M
Tier 3	15%	5%	Over \$12M

Referral = % of SC's 20% fee. Owner always keeps 70%. Override = % of SC fee on sub-affiliate deals.

Override is on sub-affiliate deals only — never stacked with your own commission on the same property.

BEST LEAD TYPES

- #1 Large portfolio owners**
Multiple properties, likely unaware. One relationship = multiple submissions.
- #2 About to be sold**
Zero premium risk. Filing window adds urgency.
- #3 Currently listed**
Same logic. Recover before transfer.
- #4 Previously denied**
Almost always a documentation failure. High motivation.
- #5 Clean roof inspection**
Roofers miss forensic damage. High probability of real finds.
- #6 Improving their numbers**
Owners refinancing or raising capital benefit from uncovering a hidden asset. Pitch the asset — not their situation.
